Projects

- **KGF-Application Microservice of Banking Project**
  Nov 2019 - Aug 2020
  (Spring Boot in BE, Vue.js in FE)

- **KGF-Scoring Microservices of Banking Project**
  Aug 2020 - Sep 2020
  (Spring Boot in BE, Vue.js in FE)
  There were a lot of microservices in this project like Pre-Application, Authorization, Authentication, Process-Manager, Notification, Document- Management, Payment ...
  I have took part in Application and Scoring modules.
  My responsibilities were mostly writing unit-tests for code quality and defect management in FE and BE. I used RALLY framework including FE & BE & DB coding, deployment and support on night shifts.

- **İş Yatırım-Onboarding Project**
  Sep 2020 - Dec 2020
  (Spring Boot in BE, Vue.js in FE)
  This application was for video-communication between investors and investment advisers.
  My responsibilities were coding BE and DB side development including deployment support and incident management.

- **TKB-ContractManagement Microservice of Banking Project**
  Dec 2020 - May 2021
  (Spring Boot in BE, Quick in FE)
  Quick is FE framework that created by Softtech. Softtech is the company that I was worked for.
  My responsibilities were coding BE, FE and DB side development including deployment support and incident management.
  I used Camunda to arrange .bpmn files. .bpmn files include process of application.
  Writing Unit tests JUnit was also one of my duties.
